

## COLOMBO MRT PROJECT

### SRI LANKA

- Project Scope** : Preparation of a Detailed Project Report for a MRT Project for the capital of Sri Lanka
- Project Period** : Mar to August 2007
- Client** : NEB Rapid Infrastructure Private Ltd and SREI of India
- Location** : City of Colombo
- Project Description** : The Project is for the preparation of a Detailed Project Report (DPR) to the Government of Sri Lanka (GOSL) for a 22-km Mass Rapid Transit Project in the capital city of Colombo. This is a report on the technical and financial viability of building a MRT system to link the key locations within the city.

#### Progress Status

The fast-paced project was collectively completed in less than six months by the five-member Singapore Land Transport Consortium, with each party taking on tasks which each member has particular strength in. MSI took on the preparation of the parts relating to the topics of Rolling Stock, Power Supply and Distribution System, trackworks and the Fare Study of the Report.

The Report has been accepted by the GOSL. The Consortium members now await the project implementation decision before re-mobilising to embark on the detailed design and procurement process.
