

## DUBAI METRO PROJECT

### UNITED ARAB EMIRATES

**Project Scope** : Provide co-ordination support to the Power Supply Subsystem Supplier, Meidensha, to undertake day-to day design co-ordination with the Client/other suppliers in relation to the Power Supply system for the Rail System of the Dubai Metro Red Line Project

**Project Period** : Jun 06 to Jun 07

**Client** : Meidensha Corporation

**Location** : Dubai, UAE

#### Project Description

As the Co-ordination Manager, we were involved in the review of the design submissions and coordination of the power supply design, working with international sub-system contractors and suppliers on interface design submissions. In this respect, we had to ensure their on-time submissions, thereby enabling the acceptance and successful completion of the Factory Acceptance Test (FAT).

#### Progress Status

The Project has been completed to the satisfaction of the Client.
