

DUBAI METRO PROJECT UNITED ARAB EMIRATES

- Project Scope** : Provision of Technical Services relating to Systems Integration, Systems Assurance and Electro-Magnetic Compatibility for the Rail System, provided by the Dubai Rail Link Consortium's E&M partner, of the Dubai Metro Project
- Project Period** : Aug 05 to Dec 06
- Client** : Mitsubishi Heavy Industries of Japan
- Location** : Dubai, UAE

Project Description

As the Technical Services Consultant, we were involved on Systems Assurance (SA), Systems Integration (SI) and Electro-Magnetic Compatibility (EMC) aspects for the Rail Electrical and Mechanical (E&M) Systems. This includes establishment of SA, SI and EMC processes for, amongst others, the Rolling Stock, Signalling, Communications, Command and Control systems. Preparation of the project overall SA/SI/EMC plans,

review of SA/SI/EMC documents and ensuring consistency and coherence of the SA/SI/EMC processes among the subsystems contractors, and complying with all SA/SI/EMC requirements. In addition, MSI provided technical services on the monitoring and control of design development pertaining to the above aspects.
